

ITEMS: GABS (for use with Great American's Reusable Vinyl Balloons)

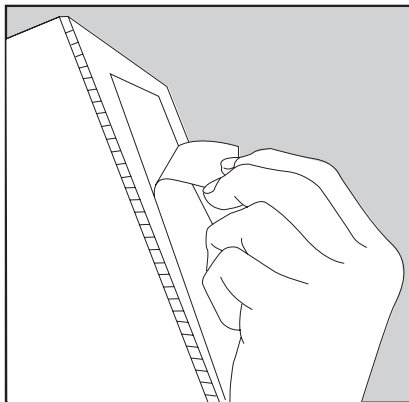

Vinyl Balloon Cluster Pole Covers

Assembly Instructions:

1. When you receive your pole cover sign (A), gently bend the prescored panels and shape into a square column.
2. Locate the flap on one end of the sign that has the adhesive strip. Peel away paper from adhesive and fold flap behind the opposite end of the sign to create a square column. Firmly press along the length of the flap to ensure that the sign is securely closed.
3. Slide your balloon cluster through the pole cover and simply place it on the ground stake or attach the cluster to a base unit.
4. To move or remove the sign from your cluster, simply unsecure the cluster from the base or ground stake and slide it from the bottom of the cluster. It is recommended that you store the sign separately, to keep it from becoming bent or damaged and ready for reuse.

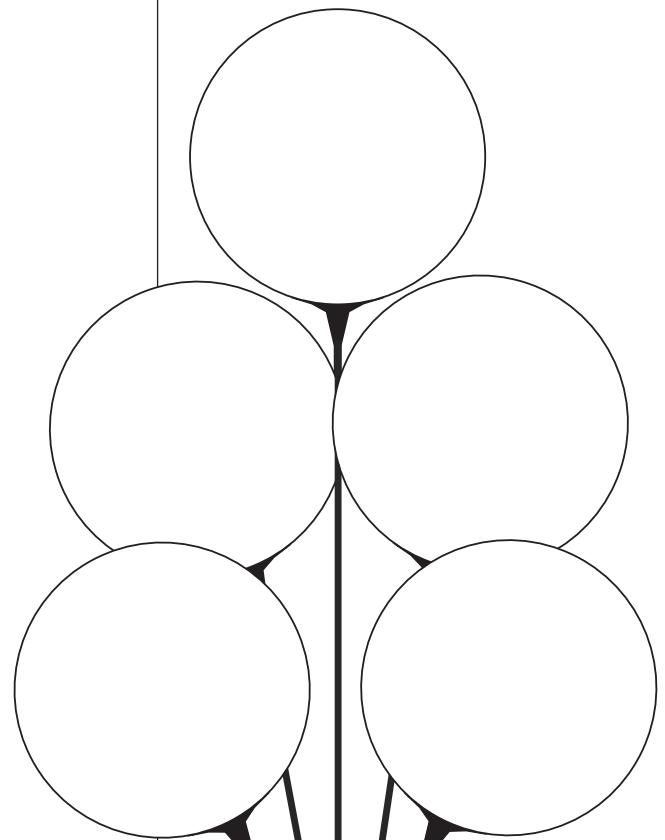

Bend the sign along the prescored seams and shape it into a square column.

Peel adhesive off of sign flap and stick it to the inside of the opposite panel to complete pole cover.

Slide cover over assembled balloon cluster.

Vinyl Balloon Pole Cover
GABS

A

Package Includes:

- A. Pole Cover

Additional items:

- Vinyl Balloon Cluster (Sold Separately)
