Air Pump or Compressor

### GREAT AMERICAN'S EXCLUSIVE HELIUM-FREE BALLOONS:

- ★ Durable for Outdoor Use
- ★ Highest Quality Guaranteed
- ★ Guaranteed to last 90 days or your money back

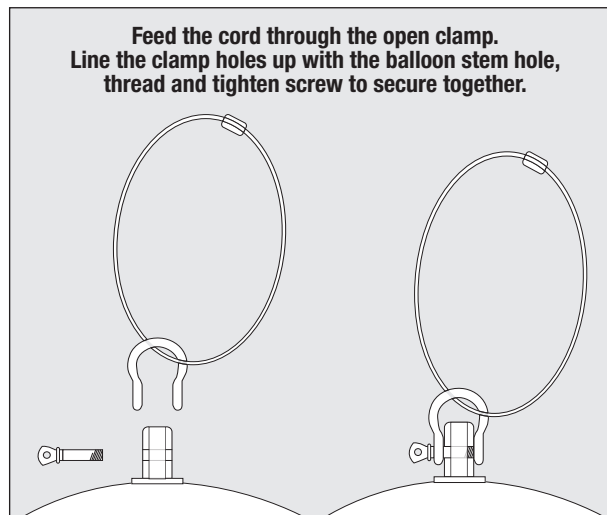

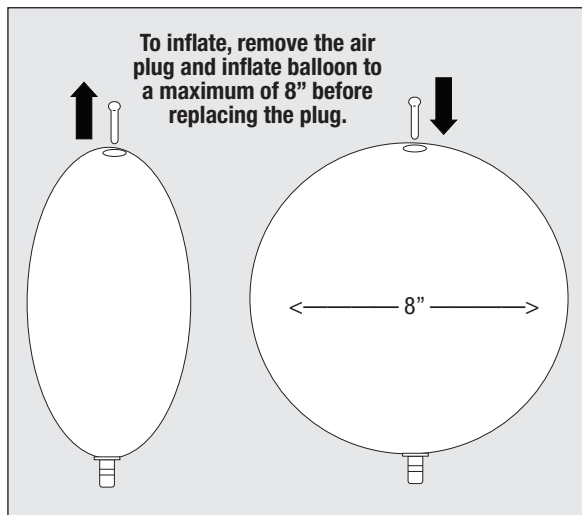

8" Vinyl Balloon Ornament KB03

## Ornament Assembly:

1. Remove the clear air plug from the top of the balloon (A) to inflate. Inflate using a hand air pump or an air compressor with a tapered fill nozzle tip.\*
2. Reinsert clear air plug into inflation hole after fully inflated. The maximum diameter should be 8" for mini balloon ornaments.

3. Hook the steel cord (B) through the open clamp (C) and line up the holes on either end of the clamp with the hole on the balloon stem. Insert the clamp screw (D) and turn to tighten.

4. Pinch the hanging loop and slide it through the hole at the top of the decorative cup (E). Twist around until the top of the clamp is lined up to the tabs in the cup and gently pull on the cord until the clamp pops into place between the cup tabs and it locks into place. Hang your ornament using the attached loop.

**Inflation Tips:**  
For best results, inflate outdoors with an air compressor. **DO NOT OVERINFLATE. BALLOONS MAY BURST AND CAUSE INJURY.** Inflate balloon just to the point where balloons feel tight. A 20° temperature variance may cause slight deflation.

*\*Note: Great American's Item **RCOMPRESSOR** is compatible with all of Great American's reusable balloons.*
