- Punched Steel models- Inside material is 12 gauge, 1/2" punched Steel. Bracing is 1-1/2" Solid Steel flat bar. All MIG welded.

Dog Climb Frames: Frames are made from 4" square pre-galvanized steel tubing.

Frame Coating: High Durability Architectural Grade electrostatic applied Powder Coat.

Hardware: All hardware is Xylan coated black hardware for extra protection and strength

Assembly Instructions

- 1. Attach Small frames to each deck using hardware provided** (Hand tighten at this time)
- 2. Lay each deck on its' side and connect the decks together by bolting them to the long frame in the middle.** (Hand tighten at this time)
- 3. Attached Dog Bone cutout to each ceck**
- 4. Set Frame in Concrete - Approx. 18".** (suggested footing hole 24" x 24" x 24")
- 5. Level and Adjust, and tighten all bolts.**

A professional installer is recommended to install this equipment.

Installation Safety:

Please Follow Installation Instructions provided by Manufacturer. It is recommended that Product is installed by an experienced installer.

Product should be inspected at the time of Delivery, do not install damaged or defective parts or products.

All Hardware for proper assembly (not installation) is provided. Use hardware that is included with this product.

Product Maintenance:

Maintenance inspection should be performed at a minimum of once a year.

Cleaning, when necessary can be performed with warm water and most house hold clean-ers. Avoid any harsh chemicals such as paint remover and acetone. Contact Manufacturer before cleaning to determine if cleaning product is OK for use.

Any surface rust that may occur should be removed and repainted. Contact Manufacturer for touch up paint or any other recommended paints.

Contact Manufacturer for instructions on removing vandalism such as spray paint.

In the case that the coating is damaged, contact Manufacture for instructions for repair.

Bolts and nuts should be checked on a regular basis to maintain proper tightness.
